Subject: Open Records Request

Dear Dr. Wellman,

Please allow me to observe any and all documents that show or reflect athletic expenditures for the period June 1, 2003 through May 15, 2004.

This current request should not include documents that provided in response to an earlier open records request.

Please provide a general ledger printout and any other documents that includes the budget and expenses to support the EISD Athletic Program and any other athletic functions expenditures for the period June 1, 2003 through May 15, 2004.

Please include all athletic expenses including those that are included in the budget under areas other than athletic. For example, these expenditures may be coded to athletics (183), trust and agency (499) or even the superintendent's office or maintenance and operations.

I appreciate your help in providing this public information. If I may assist in any way, including clarification of records that I have already received please let me know.

Sincerely,

Dianna Pharr
